

Unlock efficiency with our innovative asset tracking solutions

Full asset visibility, reduce leakages, track temperature and more in the supply chain.

Digipal provides simple and cost effective asset tracking solutions that help you know where your equipment, containers and goods are at all times.

The key benefits

- ✓ **Cost Reduction:** Experience a 95% reduction in lost equipment and optimise the use of your assets reducing CapEx.
- ✓ **Real-Time Visibility:** Gain a competitive edge with end-to-end visibility across your supply chain using our DigiPortal asset tracking platform.
- ✓ **Multi-Layered Technology:** Tailor our Parent-Child asset tracking technologies to your unique needs through barcode, RFID, Bluetooth® and more.
- ✓ **Sustainable Operations:** Improve the sustainability of your business by enhancing the efficiency of your processes.

Assets we track...

Technologies we use

							
Barcode	RFID	Bluetooth	Wi-Fi	Sigfox	Cellular	Cat-M	NB-IoT
